

Whom may we thank for referring you to this office? _____

APPLICATION FOR CARE AT THE WELL CHIROPRACTIC CLINIC

Today's Date: _____

PATIENT DEMOGRAPHICS

Name: _____ Birth Date: ____ - ____ - ____ Age: _____ Male Female

Address: _____ City: _____ State: _____ Zip: _____

E-mail Address: _____ Home Phone: _____ Mobile Phone: _____

Marital Status: Single Married Do you have Insurance: Yes No _____

Employer: _____ Occupation: _____

Spouse's Name _____ Spouse's Employer _____

Number of children and ages: _____

Name & Number of Emergency Contact: _____ Relationship: _____

HISTORY of COMPLAINT

Please identify the condition(s) that brought you to this office: Primary: _____

Secondary: _____ Third: _____

On a scale of 1 to 10 with 10 being the worst pain and zero being no pain, rate your above complaints by **circling the number**:

Primary or chief complaint is: 0 - 1 - 2 - 3 - 4 - 5 - 6 - 7 - 8 - 9 - 10

Second complaint is: 0 - 1 - 2 - 3 - 4 - 5 - 6 - 7 - 8 - 9 - 10

Third complaint is: 0 - 1 - 2 - 3 - 4 - 5 - 6 - 7 - 8 - 9 - 10

When did the problem(s) begin? _____

How long does it last? It is constant **OR** I experience it on and off during the day **OR** It comes and goes throughout the week

How did the injury happen? _____

Condition(s) ever been treated by anyone in the past? No Yes **If yes**, when: _____ by whom? _____

How long were you under care: _____ What were the results? _____

Name of Previous Chiropractor: _____ N/A

PLEASE MARK the areas on the Diagram with the following letters to describe your symptoms:

R = Radiating B = Burning D = Dull A = Aching N = Numbness S = Sharp/Stabbing T = Tingling

What relieves your symptoms? _____

What makes your symptoms feel worse? _____

Is your problem the result of ANY type of accident? Yes, No

ACTIVITIES OF LIFE

Please identify how your current condition is affecting your ability to carry out activities that are routinely part of your life:

ACTIVITIES:	EFFECT:			
Carry Children/Groceries	<input type="checkbox"/> No Effect	<input type="checkbox"/> Painful (can do)	<input type="checkbox"/> Painful (limits)	<input type="checkbox"/> Unable to Perform
Sit to Stand	<input type="checkbox"/> No Effect	<input type="checkbox"/> Painful (can do)	<input type="checkbox"/> Painful (limits)	<input type="checkbox"/> Unable to Perform

Patient HIPAA Consent Form

The Department of Health Services has established a "Privacy Rule" to help ensure that personal health care information is protected for privacy. The Privacy Rule was also created in order to provide a standard for health care providers to obtain their patient's consent for uses and disclosures of health information about the patient to carry out treatment, payment or healthcare operations. As our patient, we want you to know that we respect the privacy of your personal medical records and will do all we can within the required laws, to secure and protect that privacy. We strive to always take reasonable precautions to protect you privacy. When it is appropriate and necessary, we provide the minimum necessary information about treatment, payment or healthcare operations, in order to provide health care that is in your best interests. We also want you to know that we support your full access to your personal medical records with in the state and federal laws. We may have indirect treatment relationships with you (such as laboratories or scans centers that interact with our doctors and not patients), and may have to disclose personal health information for purposes of treatment, payment or health care operations. These entities are most often not required to obtain patient consent. You may refuse to consent to the user of disclosure of your personal health information, but this must be in writing. Under this law, we have the right to refuse to treat you, should you choose to refuse to disclose your Personal Health Information (PHI). If you choose to consent in this document, at some future time, you may request to refuse all or part of you PHI. You may not revoke actions that have already been taken which relied on this or a previously signed consent. If you have any objections to this form, please ask to speak with our HIPAA Compliance Officer. You have the right to review our privacy notice, to request restrictions and revoke consent in writing after you have reviewed our privacy notice. However, we are not obligated to alter internal policies to conform to your request.

Informed Consent to Care

You are the decision maker for your health care. Part of our role is to provide you with information to assist you in making informed choices. This process is often referred to as "informed consent" and involves your understanding and agreement regarding the care we recommend, the benefits and risks associated with the care, alternatives, and the potential effect on your health if you choose not to receive the care. We may conduct some diagnostic or examination procedures if indicated. Any examinations or tests conducted will be carefully performed but may be uncomfortable. Chiropractic care centrally involves what is known as a chiropractic adjustment. There may be additional supportive procedures or recommendations as well. When providing an adjustment, we use our hands or an instrument to reposition anatomical structures, such as vertebrae. Potential benefits of an adjustment include restoring normal joint motion, reducing swelling and inflammation in a joint, reducing pain in the joint, and improving neurological functioning and overall well being. It is important that you understand, as with all health care approaches, results are not guaranteed, and there is no promise to cure. As with all types of health care interventions, there are some risks to care, including, but not limited to: muscle spasms, aggravating and/or temporary increase in symptoms, lack of improvement of symptoms, burns and/or scarring from electrical stimulation and from hot or cold therapies, including but not limited to hot packs and ice, fractures (broken bones), disc injuries, strokes, dislocations, strains and sprains. With respect to strokes, there is a rare but serious condition known as an arterial dissection that involves an abnormal change in the wall of an artery that may cause the development of a thrombus (clot) with the potential to lead to a stroke. This occurs in 3-4 of every 100,000 people whether they are receiving health care or not. Patients who experience this condition often, but not always, present to their medical doctor or chiropractor with neck pain and headaches. Unfortunately a percentage of these patients will experience a stroke. As chiropractic can involve manually and/or mechanically adjusting the cervical spine, it has been reported that chiropractic care may be a risk for developing this type of stroke. The association with stroke is exceedingly rare and is estimated to be related in one in one million to one in two million cervical adjustments. It is also important that you understand there are treatment options available for your condition other than chiropractic procedures. Likely, you have tried many of these approaches already. These options may include, but are not limited to: self administered care, over-the-counter pain relievers, physical measures and rest, medical care with prescription drugs, physical therapy, bracing, injections and surgery. Lastly, you have the right to a second opinion and to secure other opinions about your circumstances and health care as you see fit. I have read, or have had read to me, the above consent, I appreciate that it is not possible to consider every possible complication to care. I have also had an opportunity to ask questions about its content, and by signing below, I agree with the current or future recommendation to receive chiropractic care as is deemed appropriate for my circumstance. I intend this consent to cover the entire course of care from all providers in this office for my present condition and for any future condition(s) for which I seek chiropractic care from this office.
